SUMMARY

Full stack web developer with 4+ years of experience building production SaaS and e-commerce products in TypeScript, React, Next.js and Node.js. I deliver features end to end, from database and API through UI, testing and release, including bilingual English/Arabic (RTL) products.

EXPERIENCE

Full Stack Web Developer | *Cultiv LLC* Mar 2024 – Present | Cairo, Egypt

Mentor a junior developer through code review, pairing and production support.

TrueForm – *multi-tenant SaaS (Next.js, NestJS, PostgreSQL)*

- Led frontend development of a drag-and-drop form builder with **15+ field types**, a multi-step renderer and admin dashboard, with full i18n and Arabic RTL support.
- Built the exam frontend and extended backend timing, **AI grading of voice answers** (OpenAI), manual review and secure launch links.
- Integrated XPay checkout and **Stripe billing**, strengthening subscription entitlements and checkout recovery.
- Built a webhook builder with LiquidJS templates and SSRF protections; hardened RBAC, tenant isolation and the Bitrix24 CRM integration.
- Added end-to-end (E2E) regression testing with Playwright (**70 browser tests**) alongside Vitest/Jest unit and PostgreSQL integration tests.

DietHub & Bureau – *client websites (React, Tailwind CSS)*

- Led the DietHub portal revamp; SEO and performance work grew organic traffic by **320% in 6 months**. Built its CMS for content and lead tracking.
- Built the responsive, bilingual (English/Arabic) Bureau corporate website with custom animations.

TrueAgent – *AI agent platform (Next.js, TypeScript)*

- Building the frontend of Cultiv's new AI agent platform, in progress.

Full Stack Web Developer | *Scandiweb* Mar 2022 – Mar 2024 | Latvia (Remote)

Riverty – *buy-now-pay-later payment extension for e-commerce platforms*

- Maintained and extended the Riverty payment extension for Magento and PrestaShop, delivering its PrestaShop integration and new checkout features.
- Resolved compatibility issues across multiple Magento and PrestaShop versions and supported the extension in production with internal teams.

SKILLS

Programming: TypeScript, JavaScript, SQL, HTML, CSS

Frontend: React, Next.js (App Router, Server Components, Server Actions), Tailwind CSS, TanStack Query, Redux Toolkit, Zustand, responsive design, i18n & RTL

Backend: Node.js, NestJS, Express, Prisma, REST APIs, authentication (JWT), webhooks, payment integration (Stripe), OpenAI API

Data: PostgreSQL, MySQL, MongoDB, Redis

Testing & DevOps: Playwright (E2E), Vitest, Jest, Docker, CI/CD (GitHub Actions), Vercel, Linux (Ubuntu)

Tools: Git, Figma, Magento, PrestaShop, AI-assisted development (Claude Code, Codex)

EDUCATION

BSc in Engineering | *Helwan University (now Capital University)* 2021 | Cairo, Egypt

Very Good with Honors

LANGUAGES

Arabic (native) · English (fluent) · French (fair)
